Following the Seven
Years' War (17541763), the American
extent of which was
known as the French
and Indian War,
Britain took control of
eastern Canada from
the French Empire.

After the French and Indian
War the Quebec province was
subject to the monarch of
Britain (King George III)
political jurisdiction. Province is
a political division similar to a
state.

King George III

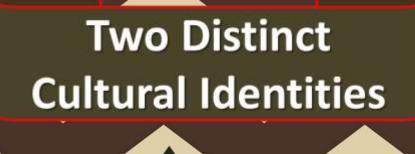

Jurisdiction means subject to authority.

The province of Quebec was subject to the complete authority of the King George III.

After years of unrest over the King's unfair rules and regulations, Quebec citizens set up a referendum against the King authority. A referendum is a special vote on a specific issue.

The citizens voted for political sovereignty from his rule.
Sovereignty means the right to self-rule.

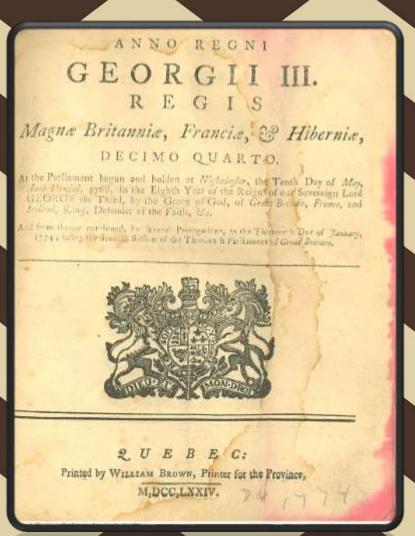

In an effort to appease the citizens, the King agreed to the Quebec Act (1774), which stated that Quebec citizens would not be require its newly francophone citizens to assimilate culturally. Francophone means French speaking.

The Quebec Act (1774), passed by the British Parliament instituted a permanent administration in Canada replacing the temporary government created at the time of the Proclamation of 1763.

The Quebec Act gave the French Canadians complete religious freedom and restored the French form of civil law.

The Quebec Act basically granting Canadians freedom to go back to their original form of governance and French culture in the Province of Quebec.

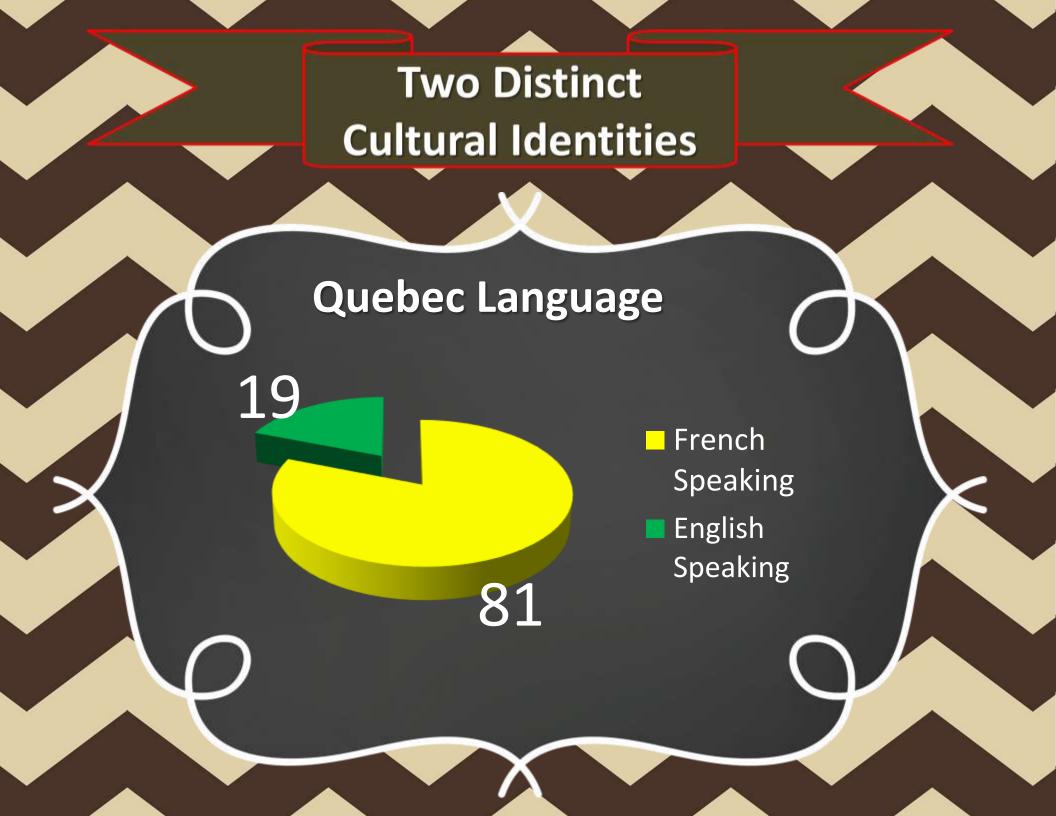

Over 200 years later eastern Canada, especially Quebec – is composed primarily of French-speaking Roman Catholics, whereas the rest of Canada is largely English-speaking Protestants.

French is the official language of business and government in Quebec. Advertising can be in both French and English. However, the English portion must come after the French part, and the **English words must be** of smaller size.

Quebec is unique because its official language is French rather English like the rest of Canada.

The political movement for Quebec to separate from Canada as an independent, French-speaking nation can be traced back to a controversial 1967 speech delivered by French president Charles de Gaulle, in which he remarked Vive le Quebec libre! ("Long live a free Quebec!") From there, Quebec's quest for autonomy began in earnest.

Autonomy means political independence.

Charles de Gaulle (French President)

Why would a country want political autonomy?

Countries without political autonomy (independence) are subject to another countries ideology's, beliefs, values, and laws. It is important for all self-governing countries to have autonomy in order to have their cultural heritage.

Quebec embraces its **French** inheritance with cultural diversity different than any other city in Canada.
